WHAT IS A CSA/ FARM SHARE?

CSA stands for Community Supported Agriculture. It is an arrangement that allows a direct relationship between the farmer and customer. By purchasing a "CSA Share" up front, the customer gains access to fresh, high quality vegetables every week. Ultimately, it allows the customer to know their farmer personally and share in the process of growing food. Items in a CSA share will change weekly and will reflect the weather conditions. Our members receive the freshest produce available, while at the same time supporting local organic agriculture. We encourage you to come out to the farm to see for yourself how your food is grown.
